

A note of thanks...

Dear Sirs,

On or around the 19th of March I was experiencing a medical emergency. I had someone take me to your fire hall to get some tests. Everything was OK so I chose to go home rather than be transported to the hospital. I have never received a bill. I called and was told you had no record of me being there. The two men who helped me were very professional and very assuring that I would be okay. I would like to donate this check to your firefighters assoc. for the wonderful medical attention I received.
